## The ATAC Eco Filter

The ATAC ECO Filter has been designed as a rapidly deployable biological filter capable of treating many different effluents - from ground water to raw sewage. ECO filter is a non-powered biological filter designed to remove biological loading from wastewater influents, whilst also adding dissolved oxygen into the effluent flow.

 Eco-Solutions

-  The ATAC Eco Filter is the first of its kind. The ECO Filter is a non powered biological filter designed to remove biological loading from wastewater influents.
-  The ECO Filter can be utilised as a plug and play solution on a capital purchase or hire scenario.
-  ATAC's treatment systems are diverse and flexible to your needs.
