■ High performance pump for whirlpool & spa

In our Magnaflow 440 pump range you will find both single speed and 2-speed models.

Excellent flow performance

This unique pump offers excellent flow performance for large whirlpool applications and spas with multiple features and jets.

Therapy and filtration in one

The 2-speed Magnaflow pump can be used for therapy at high speed and filtration at low speed.

Drain connections

The pumps are supplied with center suction and 3 drain connections to ensure total drainage upon mounting angle.

Recommendation

Use the 2-speed model together with our System 500 Digital to control all functions in your spa including hydro massage and filter pump (filtration at low speed).

Approvals

The Magnaflow 440 pumps are TÜV approved according to European norms EN60335-1 and EN60335-2-41 with focus on EN60335-2-60 where relevant.

Material

Motor extruded aluminium, wet end grey noryl
