

Health & Safety Policy Statement

Number	HSPS-001		
Revision	Rev 4		
Date	07/06/2019		
Page number	1	of	1

ATAC Solutions Limited has adopted the provisions as contained in the Health & Safety at Work Act 1974, and other applicable regulations so far as the provisions apply to the categories of works we undertake.

All levels of management are to be aware of their Roles and Responsibilities as laid out in our Health & Safety Policy and are to ensure that these are followed at all times. By assuring this application, we recognise the business case for and will prioritise the provision of, a sound approach to the, Safety, Health and Welfare of all our employees and anyone who may be affected by our acts or omissions, and care for the environment in which we work and source materials from, above that of production and any of our business outputs.

We will endeavour to ensure that all employees are provided with sufficient information, instruction, training and supervision to enable us to maintain a safe place of work and safe systems of work at all times.

We will ensure that all reasonable measures as dictated by the appropriate Approved Codes of Practice and our Risk Assessments are undertaken to ensure the safety, health and welfare of all persons on sites or other work places including employees, contractors and visitors.

We are committed to the continual development of a safe and healthy culture throughout our Company structure and will consult with employees / safe representatives and external professional safety bodies to maintain or enhance our Health & Safety arrangements. We place great emphasis on the need for co-operation and support viewing breaches of Health & Safety, and Environmental Legislation or duties and procedures as set out in our policy document, as serious misbehaviour, liable to result in severe disciplinary action. The Health & Safety Director has the direct responsibility for ensuring the correct management structure is in place to eliminate or reduce risk as far as is reasonably practicable.

Relevant financial and physical resources required for both implementing and monitoring the arrangements of this policy and that of our activities will be allocated.

Of initial importance is the planning stage of our activities for which personnel expertise and time resource will be ensured (access for instance to this process may be via our consultant safety advisors).

This policy statement is to be reviewed, annually, in respect of changes to the company structure, technological developments and identified omissions.

Director Declaration
