

	<b>Quality Policy Statement</b>	Number	QPS-001		
		Revision	Rev 3		
		Date	07/06/2019		
		Page number	1	of	1

ATAC Solutions specialises in the development and marketing of equipment for the treatment of municipal and industrial water. Great emphasis is always placed on the development of new products which are at the forefront of environmental technology.

The Company are committed to deliver products and services according to customer requirements by efficiently applying resources of the company and our suppliers.

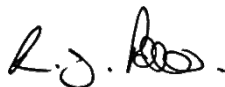

Quality improvement objectives are established, pursued, and reviewed to Management at regular intervals. Management ensures that this policy is communicated, understood, and implemented at all levels within the organisation, and annually reviewed for continual suitability and improvement.

The Company has adopted an Integrated Management System (P-IMS). The procedures contained within P-IMS provide a framework for management to control its activities, which will continually improve the effectiveness of the management system.

The Management of the Company confirms the commitment of the company and its employees to the implementation of ISO 9001;2015 as well as requisite statutory and regulatory requirements.
