ATAC Solutions Ltd Expands Operations with New Facility at LOC8 Business Park, Maidstone

Maidstone, Kent, UK: 3 July 2025

ATAC Solutions Ltd, a leading provider of wastewater treatment solutions in the UK, is proud to announce the expansion of its operational footprint with the acquisition of a second unit, Unit A1, at LOC8 Business Park, Maidstone. This latest move marks another major milestone in ATAC's rapid growth trajectory and its commitment to serving the evolving needs of the UK water sector.

Unit A1, offering a total of 25,811 sq ft (including 23,431 sq ft of warehouse and 2,380 sq ft of first-floor office space), will primarily function as a dedicated facility for the construction, fit-out, and storage of wastewater treatment equipment. This facility will support both capital sales and hire options, ensuring that ATAC's customers have quicker access to high-quality, ready-to-deploy treatment systems.

"This new facility represents a significant step forward for ATAC as we scale our capabilities and gear up for the upcoming AMP period," said Adam Colley, Managing Director at ATAC Solutions Ltd. "With this added space, we're not only investing in our build-to-buy and hire departments but also enabling the refurbishment and redeployment of our fleet more efficiently and sustainably."

Building on the momentum of last year's move into Unit A9, ATAC's head office at LOC8, this new expansion strengthens the company's operational presence at the state-of-the-art business park. The 2023 relocation to Unit A9 provided enhanced amenities, including a barrier-free, inclusive workspace and a fully equipped gym for staff, reinforcing ATAC's values of well-being, accessibility, and innovation.

Now, with Units A1 and A9, ATAC is uniquely positioned to deliver scalable, fast-response solutions to the UK's wastewater challenges, supporting water companies with more flexibility, stock availability, and technical expertise.

ATAC Solutions Ltd would like to thank its dedicated staff and loyal customers for their continued support and flexibility during this exciting period of growth and transformation.

About ATAC Solutions Ltd

ATAC Solutions is a UK leader in wastewater treatment, providing advanced solutions to public utilities, industry, and commercial clients. With a focus on innovation, sustainability, and service, ATAC helps clients meet their environmental goals through capital sales, hire services, and turnkey project delivery.
